

Dear CSSW Parents and Staff,

Some children in our school have a severe allergy to peanuts and tree nuts. Strict avoidance is the only way to prevent an allergic reaction. The allergy can be life threatening.

We must do all we can to provide these students with a safe environment. In an effort to allow these students to participate fully in all activities, we ask that you do not send in any food/snack that contains peanuts, tree nuts or nut oils with your children for recess.

Your cooperation is greatly appreciated.

CSSW School Office
